

Embedding The Health Act into practice

ACT on HCAI is a high-impact training and education programme designed to raise organisational awareness of the importance of *The Health and Social Care Act 2008*.

ACT on HCAI programme objectives

- Raise organisational awareness of *The Health and Social Care Act 2008*.
- Build and enhance baseline infection control knowledge.
- Create individual accountability for preventing HCAs.
- Generate a shared momentum for tackling HCAI together.
- Motivate participants to cascade information to their teams.
- Inspire participants to engage in follow-up activities and further development.

ACT on HCAI has been designed as a complete solution.

Each component can also be offered individually to fit with specific needs.
